

Advanced Trauma Life Support Refresher Course for Physicians

The Advanced Trauma Life Support (ATLS) course teaches a systematic, concise approach to the early care of the trauma patient. This course is vital to guiding care for the injured patient in Emergency Department trauma resuscitation rooms. The course training provides a common language that can save lives in a critical situation.

The ATLS refresher course is a half-day class that provides providers the opportunity to maintain their current status. The course consists of content overviews, triage scenarios, written and practical tests. This refresher course is for those with a current or recently expired ATLS status who are within their six-month grace period. The course will take place from 9:00 a.m. to 1:00 p.m.

This course will be offered during the 26th Annual Northwest States Trauma Conference. To learn more or register for this course, contact the Trauma Program office at **503 494-3489** or e-mail **trauma@ohsu.edu**.

26TH ANNUAL NORTHWEST STATES TRAUMA CONFERENCE

OHSU is pleased to present the 26th Annual Northwest States Trauma Conference. We have assembled a nationally recognized faculty to give you the most up-to-date information about care of the injured patient, including trauma care during the pre-hospital, resuscitative, operative, critical care and recovery phases. Our distinguished national guest speakers this year include Dr. Peter Rhee from the University of Arizona and Dr. Donald Jenkins from The Mayo Clinic in Rochester, Minnesota.

At the conclusion of the course, attendees will have an increased knowledge of issues such as:

- Pre-hospital C-spine clearance
- Resuscitation basics of pediatric trauma patients
- Radiation risk from CT scans
- Aeromedical considerations when transporting trauma patients by air
- ECMO applications in trauma
- Challenges of being a Level 1 trauma center in a rural community
- Blast injuries
- Practical fracture/dislocation reduction strategies for rural providers
- PTSD in trauma patients
- Translating wartime experiences to civilian trauma care
- Thoracic trauma care and traumatic brain injury

Visit www.ohsu.edu/trauma for more information and to register.
